- Available in five colours
- Extra-large cloth
- Low-linting
- Infection control friendly
- High absorbency
- Chemical-free
- 33cm x 29cm wipe
- 40gsm

### How to use colour coded wipes

**Green** - Kitchens, food preparation areas, food service areas

**Blue** - General cleaning, offices, low risk areas

**Red** - Toilets, bathrooms, washrooms, dirty utility rooms

**Yellow** - Infectious areas, isolation areas

**White** - Clinical areas, operating theatres

Highly absorbent and low-linting, they can be used wet or dry and are ideal for surface cleaning. Made from a strong, apertured, thermal bond polyester and viscose blend cloth, ensuring they won't fall apart even when wet.

Reynard™ colour coded wipes have been developed for ease of use when identifying cleaning equipment for different areas of the hospital.
