

Reynard Isopropyl alcohol wipes.

The original disinfection wipe.

Hospital grade disinfection wipes impregnated with 70% isopropyl alcohol (IPA) that kills 99.9% of germs on contact.

An ideal solution for infection control or general cleaning. Reynard isopropyl alcohol (IPA) wipes quickly and effectively disinfect hard surfaces and equipment, killing germs and pathogens on contact.

Reynard is reassurance.

Cleaning & disinfection | Personal care | Dry wipes
Clinical skin cleansing | Hand hygiene | PPE

 **Reynard**
Health Supplies

Fragrance free and non-tainting, Reynard IPA Wipes provide an ideal solution for infection control and general cleaning.

Our formula contains a low-foaming, biodegradable, non-ionic surfactant. This exhibits excellent detergency for the emulsion of fatty and greasy soils. These wipes are disposable, soap free and effective against most common microorganisms.

Effective against:

- C. albicans
- E. coli
- Listeria monocytogenes
- MRSA
- Niger
- P. aeruginosa
- Proteus vulgaris
- Salmonella typhimurium

A cost-effective disinfection solution with staff safety in mind.

Eliminating the need for cloths, spray bottle and chemicals which saves on laundering and storage costs. Pre-impregnated wipes remove the need for staff to measure chemicals and potentially harmful airborne sprays.

Convenient disinfection, whatever the surface.

These multipurpose hospital grade disinfection wipes are safe for use on most hard surfaces. This includes mattress covers, beds, tables, work tops, trays, trolleys, and other hospital equipment.
