

Reynard Shampoo Cap

The cap is impregnated with a gentle conditioning shampoo designed to release when massaged into the scalp. Removing the need for water, bowls and other products whilst saving on valuable nursing time.

Specifications

- Removes dirt, EEG gel, debris and blood
- Reduces patient movement & cradle cap
- A complete rinse-free hair care solution

Points to remember

- Shampoo caps can be used hot, cold or at room temperature
- Cleanses and conditions hair in one easy step

Each pack contains 1 cap. Each shampoo cap is for single patient use and will cleanse the head and hair.

Preparation: Heating: If using warm, heat the unopened pack in a microwave for 10 to 20 seconds or alternately place the sealed pack in hot water for 3 to 5 minutes (always check the temperature of cloth before use).

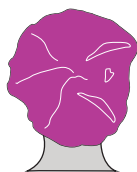

Chilling: Place sealed pack in refrigerator for 10 minutes.

Other: Use cloth directly from the pack.

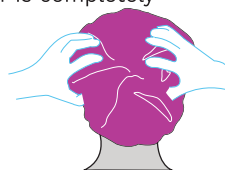

Step 1: Place cap on the patients head.

Step 2: Ensure all hair is covered.

Step 3: Massage the head all over for 2-3 minutes to make sure the hair is completely saturated.

Step 4: For patients with longer hair, remove cap and work through the ends of the hair to ensure all hair is properly washed.

Step 5: Finally Towel dry hair if required

Step 6: Dispose of the cap and packaging responsibly. Do not flush or put into a macerator.

Please note: we recommend following hospital patient cleaning protocols, including the use of P.P.E. where appropriate.
